Resources Used In Bannatyne Project

I have attached below a list of the free and open access programmes, tutorials and resources I have used thus far in the project that may help future small-scale digital projects begin. With the exception of oXygen, all are available at no cost. Atom is a reasonable substitute for oXygen, though for large scale TEI projects, it lacks some functionality.

Programmes/Software

Atom [free, open source and essential for working with plain text/XML]

Universal Viewer [useful for viewing the Bannatyne]

GitHub & GitHub Desktop [for maintaining the project website]

— This excellent tutorial from DHSI 2019 by Katherine Eaton goes over Git basics

Jekyll [software for a static website, used in conjunction with tutorials below]

—- [If using Mac OS this article may help with Jekyll installation]

TEI Consortium [information, reference, encyclopaedic!]

TEI By Example [useful tutorials]

**oXygen XML editor [paid piece of software for TEI/XML, but trial periods are available]

TEI Boilerplate [environment for playing with TEI and publishing to browsers]

Introduction to RegEx [regular expressions]

— RegEx101 [tool for using/manipulating regular expressions]

Dariah Course Repository

Tutorials

The Programming Historian [general repository of very useful tutorials]

— specifically Building A Static Website in Jekyll by Amanda Visconti

A Gentle Introduction to XML [conceptualises why we might use XML in research]

Character Codes [handy for non-standard characters]

#dariah course on TEI [An introduction to TEI]

Introduction to Markdown [useful for working with Atom and TEI]

Readings on DH

Dot Porter, 'Medievalists and the Scholarly Digital Edition', *Scholarly Editing: The Annual of the Association for Documentary Editing* 34 (2013).

Mary-Jo Kline and Susan Holbrook Perdue, *A Guide to Documentary Editing,* 3rd Edition. Available online.

Amanda Gailey. 'The Death of the Author Has Been Greatly Exaggerated' in *Proofs of Genius: Collected Editions from the American Revolution to the Digital Age* (2015)

Elizabeth Losh and Jacqueline Wernimont, eds. *Bodies of Information: Intersectional Feminism and Digital Humanities* (2018). Available online.

Scotland/Bannatyne Specific

Scottish Text Society Bannatyne MS ed. W. Tod Ritchie, PDF courtesy of National Library of Scotland.

Dictionary of the Older Scots Tongue (DOST) [invaluable for glossing and translation]

Scottish Handwriting Website [reference materials on secretary hand]

TEAMS [useful editions of Older Scots texts]

Catalogue of English Literary Manuscripts [description of Bannatyne and contents]

Grant G. Simpson. *Scottish Handwriting 1150-1650* (Edinburgh: Birlinn 2010) [available in university libraries]

Elements of Abbreviation by Adriano Cappelli, trans. Heimann and Kay [useful for medieval manuscript abbreviations]
